

BALEX® RAMP REVIEWS

BALEX®
AUTOMATIC BOAT LOADER

Seaview Marina – Lower Hutt

Overview:

Located at the more sheltered north-eastern end of Wellington harbour, Seaview Marina offers one of the best trailerboat launching facilities in the region.

A four-lane concrete ramp that operates at an all-tide depth of 2.2 metres is serviced by three jetties. Launching is available 24/7, all-year round.

Parking:

There is an extensive parking area which is secured behind a two-metre high, electrified fence. Secure overnight and longer-term parking is available in an adjacent compound.

Ramp fees:

The cost per day is \$9 to launch and retrieve and can be paid in coins, or by eftpos and credit card. An annual ramp card costs \$135.

Facilities:

The ramp is part of an extended marine site that includes a marina, travel lift, a café, service area, Burnsco store, Pete Lamb Fishing base and a café.

Once in the gate you have access to a toilet block, rubbish facilities (not for fish waste) and five taps to wash down your boat and flush your engine – you will need your own hose and standard tap fittings.

Check out www.seaviewmarina.co.nz for more information about the ramp.
