

BALEX[®] RAMP REVIEWS

BALEX[®]
AUTOMATIC BOAT LOADER

Lake Tarawera – the Landing

Overview

Lake Tarawera has many boat ramps, but “The Landing” is very famous, thanks to its café and beautiful setting. There is just one concrete lane, so you need to be quick when you launch and retrieve, so you better have a Balex system on your trailer. The location is stunning and the Lake is the perfect spot for waterskiing, bisquiting, trout fishing or visiting the hot pools.

Parking

There is not much trailer parking provided. Make sure you come early and reserve a spot.

Facilities:

The ramp has a toilet block and the Landing Café is open daily from 10am. The food is delicious and the views are breath taking. At the side of the jetty is a recycling station and lots of information about the lake. For trout fishing on the lake you need to get a licence from Fish & Game for the Eastern Region.

Powerloading is prohibited here and you will receive a \$200 fine if you do so. Make sure you stick to the regulations, to protect our ramps!
